

Fire Sprinkler System Plan Review

Tue. & Wed., June 13 & 14
8:00 a.m. - 4:00 p.m. (Central)

Check-in begins at 7:30 a.m.

Mid-America Carpenters Regional Council
1256 Estes Ave., Elk Grove Village, IL

Plan Review for Fire Sprinkler Systems (2-Day)

This two-day, in-person seminar provides attendees with vital information on how to conduct the plan review process for water-based fire protection systems.

Utilizing the requirements of NFPA 13, the participants will be guided through an actual review of sprinkler system plans and calculations. They will discuss the importance of employing a systematic review process and identify the documents required for a complete plan review. Finally, participants will review and discuss a submittal of the hydraulic calculations presented with the plans. Discussion points include the process of hydraulic calculations and identification of the key pieces of information, and the common errors that are made.

NOTE: Class follows 2016 edition of NFPA 13. We will provide attendees with a copy if they are unable to bring it (one per fire department).

Boxed lunch will be provided each day.

Certificates will be issued for 14.0 ICC contact hours.

Please register by Monday, June 5.

Register at www.bit.ly/plan-review-23

Class is FREE with gift card # GIFT-01029

Instructor Ron Ritchey

*Great Lakes Field Services Coordinator
National Fire Sprinkler Association*

Ron Ritchey began his career with NFSA after retiring from the Lafayette (IN) Fire Department with 23 years of service, sixteen of those years as Assistant Chief of the Fire Prevention Bureau. He is now responsible for the oversight of membership services for the five state region in the Great Lakes area and travels throughout the U.S. conducting training programs to improve the understanding and implementation of the codes and standards relating to water-based fire protection systems.
